Software Practical Components

Students will receive hands-on practice in:

Microsoft Excel

Financial data analysis

Audit schedules

Tax computation worksheets

Bank reconciliation statements

Microsoft Word

Audit working papers

Audit reports

Management letters

Tally Prime (or equivalent accounting software such as BUSY, Marg ERP, or a university-approved package)

Voucher entry

Ledger creation

Trial balance generation

Financial statement generation

VAT configuration (where applicable)

IRD e-Filing Portal (Demonstration)

Taxpayer registration overview

VAT return preparation

Income tax filing process

Online tax payment workflow

Practical Activities

Verification of accounting documents

Voucher checking and ledger scrutiny

Bank reconciliation

Trial balance verification

Preparation of audit working papers

Identification of accounting errors and audit observations

Income tax computation

VAT computation and return preparation

Preparation of audit reports

Software-based case study and presentation
